

GHENADIE BUJAG

Frontend Developer

OBJECTIVE

A passionate and dedicated React developer with hands-on experience building web applications using ReactJS. Committed to producing high-quality, user-friendly, scalable, and maintainable web solutions. Seeking a junior developer position to further hone my skills and contribute to the team.

WORKING EXPERIENCE

Personal Project

Feb 2023– Sep 2023

Social Network App

- Developed a React-based social media application, allowing users to post updates, chat, and interact in real-time.
- Implemented user authentication features ensuring data privacy and security.
- Integrated with API for real-time data storage and retrieval.
- Utilized Redux for efficient state handling and component re-renders.
- Maintained code quality with consistent styling, comprehensive comments, and regular, descriptive commit messages.
- View on [GitHub](#), link to live [demo](#)
